**NUTRITION TIP FROM THE KSC FITNESS CENTER:** Meeting calcium requirements sometimes calls for creativity. Calcium helps build strong bones and healthy bodies. For some, drinking milk or enjoying yogurt or cheese is a simple task. But for others it may require some creativity to ensure your family is receiving the recommended amount of calcium per day. If you have a picky eater in your family, try the following recipe tricks to build and maintain strong bones and teeth:

- Add powdered milk to mashed potatoes, soups or even hot cereal
- Top vegetables with a slice of cheese or some cheese sauce
- Add shredded cheese to scrambled eggs
- Layer fresh fruit, cereal and yogurt in parfait glasses
- Mix whole-grain cereal with fruit-flavored yogurt for a quick breakfast
- Swap white milk for an ice-cold glass of flavored milk like chocolate or strawberry.

Make sure your family gets three servings of low-fat or fat-free milk, cheese or yogurt each day for calcium and other essential nutrients for healthy bodies.
